

**Title: Marinet publishes YouTube recording of its UK Universities Seminar.**

**Text:** Marinet is currently embarking on a series of seminars at UK universities in which it presents the scientific evidence and arguments for a paradigm change in the governance of human activity in the ocean, as explained by Marinet Member, Deborah Wright, in her publication [Conserving The Great Blue](#).

This two hour long seminar has been filmed and edited into a one version which may be seen [here](#).

If you are interested in hosting a seminar, please contact [Marinet](#).
