Subject: Anglian Offshore Region MAREA - hase 2

Mr Eades

Further to our conversation last Thursday I can confirm that following the completion of the scoping report on Phase 1 of the Anglian Offshore Region MAREA, Emu Ltd have submitted a tender for undertaking Phase 2.

As such we are currently not under contract. We understand that the Anglian Offshore Dredging Association will be making a decision on their preferred consultant within the next week or so.

In the meantime I can assure you that all correspondence received from you and your colleagues has been filed appropriately and will be dealt with by the successful consultant once Phase 2 had been awarded.

We are of course hoping that we will be the successful consultant and in that light look forward to picking up dialogue with you in the near future.

With regards

Bruce Tomlinson
