23<sup>rd</sup> June 2009

Dear Mr Eades,

**Marine Aggregate Regional Environmental Assessment (MAREA) for the Anglian Offshore Region – Phase Two.**

Following the delivery of the AODA MAREA Scoping Report in November 2008, Phase Two of the Anglian MAREA has now commenced. Emu Ltd was officially awarded the contract of the full MAREA in April 2009 following a 4 month hiatus.

At present, the project is in the Inception Stage. Geophysical and benthic survey specifications are in the process of being finalised as well as amendments to the MAREA project approach in order to address the Physical Processes Workshop recommendations made in the Scoping Report.

All correspondence received from MARINET has been provided to AODA. As with the Scoping Phase of the MAREA, targeted consultation will be undertaken with respondents to the Scoping Report and any further organisations identified as beneficial to the full production of the MAREA. Please be assured that your feedback on the Scoping Study will be considered carefully.

If you have any questions or further comments please contact Justina Southworth at [justina.southworth@emulimited.com](mailto:justina.southworth@emulimited.com) or on the address above.

Yours sincerely

**Steve Freeman**  
On behalf of AODA
