**Friends of
the Earth**

14th February 2009.

For the attention of: Bruce Tomlinson, Project Director, Anglian Offshore Dredging Association,
c/o Emu Ltd, 1 Mill Court, The Sawmills, Durley, Southampton SO32 2EJ.

Dear Dr. Tomlinson, AODA MAREA Final Scoping Report.

I write in connection with the submission made from MARINET in my name on 4th January 2009; in connection with the submission from MARINET in the name of Mike King, Great Yarmouth, on 14th January 2009; and in connection with the submissions made from MARINET in the name of Pat Gowen, Norwich, on 17th, 23rd and 25th January 2009.

All of these submissions drew your attention to our perception of matters in the formulation of the Scoping Report which, in our belief, required revision and amendment of the Scoping Report; and, we asked that the Scoping Report be so revised and that you advise us of your decision in respect of these specific requests accompanied by your reasoning should you not be able to accede to these requests.

Also, the submission to yourself by Pat Gowen dated 25th January specifically asked you to explain the appeal procedure in this matter should you share a different belief to ourselves in respect of the amendments which we have requested to the Scoping Report.

Our members are now asking me where we now stand in this specific matter.

To date, I am not aware that any of our members have received a communication from you answering the matters detailed in the correspondence recorded above.

Accordingly, I would be most grateful to receive your advice on this specific matter of whether you are able to amend the Scoping Report as requested by our members, an outline of your reasoning where necessary, and an outline of the appeal procedure should this be required. I advise that a copy of this letter has been sent to the Executive Director of the Marine and Fisheries Agency for his information.

Yours sincerely

S. D. Eades
